

B-SAFE

Cod. TB-055-S

B /Safe is the new MGF device for sanitizing and disinfecting environments. It is a highly efficient turbine which, thanks to the support of a professional gun, guarantees the dry nebulization of sanitizing liquids.

B /Safe guarantees:

- constant supply of air
- wide range (up to 1.5 meters)
- high yield
- dry nebulization B /Safe is comfortable, light and ready to use!

MGF recommends the use of hydrogen peroxide, recommended by WHO against Corona virus and indicated in the main health protocols, and quaternary ammonium salts as ideal liquids for nebulization
